

SOCIETY OF  
**CARDIOVASCULAR**  
COMPUTED TOMOGRAPHY

On March 30 and 31, 2010, SCCT President Jack A. Ziffer, MD, PhD, participated in the Food and Drug Administration's public meeting on ways to reduce radiation exposure from medical imaging. Dr. Ziffer presented oral testimony on equipment specifications and user training. He also was selected by the FDA to be a panel discussant to address the comments heard in the morning session on equipment features and to answer questions posed from the audience. A link for more information about the meeting may be found at:
