

JAMES K. MIN, M.D., FACC

Board of Directors Member

With just a few short years in the field of cardiology, James K. Min, M.D., FACC, has quickly become the go-to source for expertise in cardiovascular computed tomography angiography (CCTA). An active proponent in the study and development of CCTA as a diagnostic tool, Dr. Min was seen on the *Today Show* in 2006 performing Matt Lauer's cardiac CT angiogram and discussing the results and implications of CCTA. Dr. Min sits on the board of directors of the Society of Cardiovascular Computed Tomography (SCCT), serves on several SCCT committees and is the regional director of the New York/New Jersey SCCT Advocacy Group. He is an assistant professor of medicine and radiology and the medical director of Cardiac Computed Tomography in the division of cardiology at the Weill Cornell Medical College and New York Presbyterian Hospital.

A highly sought after speaker on the subject of CCTA, Dr. Min has led approximately 50 lectures around the world concerning its appropriate application, advancement and new technology. Also an accomplished writer, Dr. Min is the co-author of 44 publications and 30 abstracts and presentations. He also reviews and edits several medical journals and publications such as the *American Journal of Cardiology*, the *Journal of the American College of Cardiology* and the *Journal of the American Medical Association*.

In addition to serving with SCCT, Dr. Min also serves on a number of committees within the American College of Cardiology, including the Multi-Modality Efficiency Advisory Committee, the Appropriateness Criteria Implementation Committee and the American College of Cardiology/American Society of Nuclear Cardiology Imaging and Prevention Writing Group.

Dr. Min has been the recipient of a dozen recognitions and awards including Finalist for Abstract of the Year from the American College of Cardiology in 2008, the Predoctoral Training Grant Award from the National Institutes of Health (NIH) from 1992 through 1995 and a Predoctoral Fellowship Award, Honorable Mention from the National Science Foundation in 1993.

Dr. Min received a B.A. in biological sciences from the University of Chicago in 1992 and his M.D. from the Temple University School of Medicine in Philadelphia in 1999. He completed his fellowship in cardiology at the University of Chicago Hospitals in 2005.
