COMPUTED TOMOGRAPHY

SCCT Endorsement of Cardiovascular CT Training Courses Program ***Instructions and Information***

The SCCT shall charge a non-refundable application fee of \$1,500 for consideration for endorsement of the training course for a period of one year. **A separate application and application fee must be submitted for each training course with a different course director or curriculum.**

After the initial one year period, the training program/sponsoring institution must renew for continued endorsement. The fee for continued endorsement will be \$800 for a one year period. If the course director or course curriculum changes, the curriculum vitae of the new course director and/or new course curriculum must be submitted with a new application and a new application fee (\$1,500) must accompany the application.

Training courses which are endorsed by the SCCT may state the following in their promotional literature: ***Endorsed by the Society of Cardiovascular Computed Tomography, the professional society devoted exclusively to cardiovascular CT.*** In addition, the training course may print the SCCT logo next to the above endorsement statement in the training course promotional material. The SCCT logo and endorsement language may not appear in literature, website pages or promotional materials which are not directly related to the endorsed training course. A proof of promotional material where the SCCT logo is used must be approved by SCCT prior to final printing. It is the responsibility of the endorsed training course if material must be reprinted. SCCT reserves the right to limit the use of its logo and endorsement language.

Training courses endorsed by the SCCT will be listed on the SCCT's website in a separate section of SCCT endorsed training courses with the following information listed:

- Course title
- Course sponsor
- Course date(s) and location(s) (three maximum, if applicable)
- Course director(s) and faculty (three maximum)
- Contact information

Upon endorsement or renewal, any endorsed training course may purchase an extended listing to have an additional click-through to "more info" where a course description and additional information may be listed. Extended listing rates for 2009 are \$1,000 for the first 500 words.

Applications will be considered on a rolling basis. Any missing information will delay processing. Committee review of complete applications will require one-three months processing prior to a potential approval.

Complete the application and enclose documentation as appropriate. Use extra sheets for additional data if necessary. All required signatures must be present for the application to be considered complete. Incomplete applications will be returned to the applicant. Questions may be directed to the SCCT office at 800-876-4195 or info@scct.org.

Please make application check payable to the **Society of Cardiovascular Computed Tomography**.

Return completed application, additional documentation, and payment to:
